Drag marks present?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No	
Collared Wolves in area?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	If Yes, then number: Lava 1405, 1285/ Whitewater 1684
Blood on Vegetation?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No	Describe:
Apparent point of first feeding:	N/A		
Percentage of Carcass Remaining			
	0-25%---No soft tissue, hide present, disarticulated.		
	26-50%--All organs consumed, all or most of quarters consumed, partial disarticulation.		
	51-75%--All organs and portions of the hind quarters consumed, front quarters and neck intact, articulated.		
<input checked="" type="checkbox"/>	76-100%--some organs consumed, most soft tissue intact, skeleton articulated.		
Describe any additional evidence that is discovered in the area:			
N/A			

## DEPREDATION REPORT FORM

Describe hemorrhages and corresponding marks seen while skinning the hide or other abnormalities (Location and type, e.g. claw marks on right hind leg, or canine marks on neck.) none					
Canine spread (if applicable): mm			N/A		
Cause of Damage					
<input type="checkbox"/>	Confirmed	Carnivore (list Species):			
<input type="checkbox"/>	Probable				
<input type="checkbox"/>	Accident				
<input checked="" type="checkbox"/>	Unknown				
<input type="checkbox"/>	Other:				
<b>ADDITIONAL INFORMATION:</b>					
Were photos taken of the site?		<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	Attached?	
		<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No		
Was a veterinarian involved in cause of death determination?				<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
If yes, is a veterinarian report attached?				<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<b>SUMMARY OF INCIDENT</b> (including preface and actions taken):					
<p>Ranch Owner, contacted Wildlife Specialist (b) (6) on 6/26//2020 concerning a dead cow found. WS conducted the investigation on 6/26/2020. Upon arrival, at the investigation site, we searched for evidence and coyote tracks were found. We clipped the hide of the cow, and compression and hemorrhaging were not present on the carcass. We opened up the rumen of the cow to search for any obstruction, and none were found. We checked telemetry signals and received telemetry signals Lava Wolf Pack 1405 and 1285, and the Whitewater Wolf Pack 1684 east of the cow carcass. Based on the evidence found on the site and on the carcass, the cause of death was determined to be unknown.</p>
